Profile

Recent graduate with a Bachelor's degree in Information Technology, equipped with a solid understanding of IT fundamentals and a strong interest in software development and cloud computing. Eager to contribute to a professional team, apply technical knowledge in real-world environments, and grow within the field of software engineering. Motivated, quick to learn, and ready to take on new challenges while staying current with emerging technologies.

Experience

IT Intern – Prince Mansour Military Hospital (PMMH)

06/2024 – 08/2024

- Provided IT support by identifying and resolving technical issues efficiently for employees
- Troubleshoot network and device problems to ensure seamless daily operations with minimal downtime.
- Conducted hardware maintenance, diagnosing faults and replacing defective components to improve system reliability

Education

Bachelor's in Information Technology, College of Computers and Information Technology

2019 – 2024

Taif University

Projects

Cyber Saudi Shield (CSS) – Phishing Detection System

- Developed a phishing detection system using machine learning to identify and classify malicious URLs.
- Analyzed URL characteristics and patterns to distinguish between legitimate and phishing attempts.
- Collaborated with a team to create a user-friendly web interface for the system.
